# DEXTRO MANUAL CRANK

No electrical outlet nearby, but still want a sit-stand workstation? The Dextro with manual crank is the perfect solution for you. This stable sit-stand workstation is available from stock. The Dextro Manual Crank can also be expanded with a (semi-) acoustic wall. The crank is supplied on the right as standard. However, it is possible to mount these links. A top quality sit-stand workstation that easily takes you from sitting to standing position. Very stable due to the sturdy steel construction. This serie is available in three frame colours and seven table top colours.

# DEXTRO MANUAL CRANK DUO

The Dextro Manual Crank series are also available as a duo workstation and with the option to expand it with a (semi-) accoustic partitioner. A top quality sit-stand workstation that allows you to easily work from a sitting or standing position. Due to the sturdy steel construction, the desk is very stable. Two desks with one combined base frame, ensures that the desks will not bump against each other. Each desk is individually adjustable in height, so each colleague can determine their preferable height. This serie is available in three frame colours and seven table top colours.
